FISCAL IMPACT:
(None.)

DISCUSSION:
This item was requested by Director Smith.

Staff has worked with our webmaster to establish a procedure for emergency postings (and their subsequent removal). We now have a plan to allow staff to post a link to an emergency notice in-house, and then remove the link once the emergency has passed.

Also, the District's online payment link has now been in operation for approximately one month. So far, staff is satisfied that the process and reporting system is working. The service will be advertised in our January and February bills.

Still to do: Update the construction link and fill the FAQ's link.
