

ID#: _____

The following two questions are the take home portion of the Chapter 15 and Chapter 16 Exam.

- ❖ They are worth 25 points per question, for a total of 50 points
- ❖ 20% of each question will be based upon your showing **a preparatory organizer** for each question - list the points you want to make and organize them.
- ❖ Show the organizers on this page,  then, TYPE the essay on a separate piece of paper.
- ❖ The essays are due at the beginning of class on Friday, 7 April 2006

1. You are an honest, open and responsible person. Discuss how these characteristics would be explained according to the major perspectives on personality.

2. Clinical psychologists label people disordered if their behavior is (1) atypical, (2) disturbing, (3) maladaptive, and (4) unjustifiable. Demonstrate your understanding of the classification process by giving examples of behaviors that might be considered atypical, disturbing, maladaptive or unjustifiable but, because they do not fit all four criteria, would not necessarily be labeled disordered.
