

THE ULTIMATE GUIDE TO SECURITY

Jim Tubb
January 13, 2020

SECURITY IN THE INTERNET ERA

WHAT ARE THE THREATS

- ▶ Viruses and Malware
 - ▶ Hacking
 - ▶ Phishing and E-mail
 - ▶ Scams
 - ▶ Identity Theft
- 
- A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.

- ▶ Use a good antivirus program. The built in Windows Security was recently named as the top antivirus
- ▶ Keep your antivirus current
- ▶ Use Malwarebytes

VIRUSES AND MALWARE

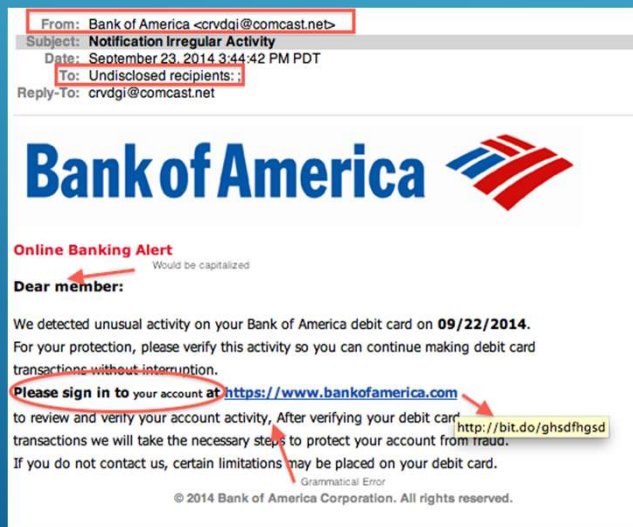

HACKING

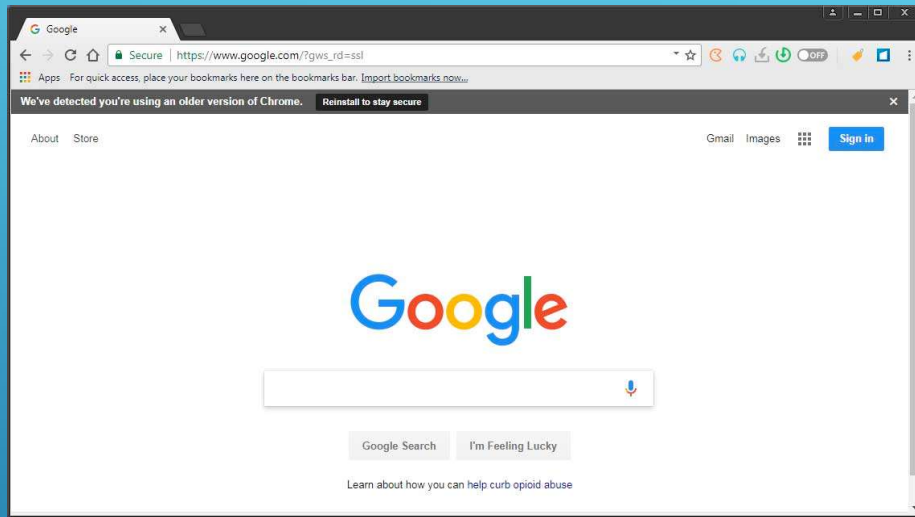

- ▶ Keep your Windows patched
- ▶ Keep all software patched
- ▶ Keep your hardware patched
- ▶ Ransomware

PHISHING AND E-MAIL THREATS

- ▶ Be sure you know who an e-mail is from
- ▶ Be sure that links in an e-mail are valid
- ▶ Don't open attachments from e-mail until you are certain it is legitimate
- ▶ Don't respond to unwanted e-mails, just block them and report as spam

BROWSING THE INTERNET

- ▶ Make sure sites are HTTPS not HTTP if you are going to share any information
- ▶ Always log out of a site that you have logged on to at the end of the session
- ▶ When setting up an account that asks for personal information, lie. Use a made-up birthday or pets name or other security question and make a record of it in your password manager in case you need it again later.
- ▶ Check your security settings for your browser.
- ▶ When joining a new site watch for pre-checked boxes offering to send you e-mails or otherwise annoy you.

IDENTITY THEFT

- ▶ Over 16 million people experienced identity theft in 2017 at a cost of over \$16 billion
- ▶ Any financial transaction puts you at risk for identity theft
- ▶ Phony bank sites
- ▶ New Credit card accounts in your name
- ▶ Credit card fraud
- ▶ Card skimmers
- ▶ E-commerce fraud
- ▶ Tax fraud
- ▶ New cell phone accounts
- ▶ Medicare Fraud

DON'T GET SCAMMED

- ▶ Be aware of scams that are going around
- ▶ Be careful with e-mail. Check to see who it is really from and where that link is taking you
- ▶ If you get an unexpected e-mail from a company you do business with asking you to log in use a dummy password and see if it accepts it. If it does it isn't legit and you haven't given your real password.
- ▶ Remember, no reputable business or government entity will call you demanding instant payment, and they don't take gift cards.
- ▶ Microsoft will never call you.
- ▶ Don't respond to onscreen messages telling you to call a number to fix your computer.
- ▶ Don't send money to someone you meet online

CURRENT SCAMS

- ▶ IRS unpaid taxes
- ▶ Social Security will suspend your account
- ▶ Grandson in Jail
- ▶ PGE will shut off your power
- ▶ Go to jail for failure to appear for Jury Duty
- ▶ “Microsoft” says something is wrong with your computer
- ▶ Virus Alert
- ▶ 1 ring calls
- ▶ Dating site request for money to meet you
- ▶ Phony Charities

IDENTITY THEFT

- ▶ Social Security Number
- ▶ Drivers License
- ▶ Medicare ID
- ▶ Health Insurance ID
- ▶ Credit card info
- ▶ Bank routing and account number
- ▶ Personal Information such as birthday, pets names, schools you went to, current and previous addresses.

YOUR PASSWORDS

- ▶ Don't re-use passwords
- ▶ Don't write your passwords down and store in an easy to find place
- ▶ Don't share your passwords with anyone you don't completely trust
- ▶ Use a Password Manager!!!
- ▶ For important sites use 2 factor authentication
- ▶ Use Biometric authentication
- ▶ Have your passwords been compromised?
Have you been pwned?

PASSWORD MANAGERS

- ▶ Built in to your browser (free)
- ▶ Last Pass (free and paid)
- ▶ Keypass (free)
- ▶ 1Password (paid)
- ▶ Microsoft Keeper (free)
- ▶ Let the password manager create complex passwords
- ▶ Best Practices
 - Don't let the password manager autofill on important sites
 - Don't use common words. If you must, change capitalization and letters e.g. paSsw0rD
 - Use phrases with 20+ characters if you want a password (passphrase) you can remember

HAVE YOU BEEN PWNED?

- ▶ Check at <https://haveibeenpwned.com/Passwords>
- ▶ Use checking tools such as:
 - Google Chrome Password Checkup
 - Pass Protect Extension
 - Firefox Monitor
- ▶ If you suspect that an account has been compromised change your password immediately

';--have i been pwned?

Check if you have an account that has been compromised in a data breach

2 FACTOR AUTHENTICATION

- ▶ Text message
 - ▶ E-mail
 - ▶ Phone call
 - ▶ Device
- 
- A decorative graphic consisting of several parallel white lines of varying lengths, slanted upwards from left to right, located in the bottom right corner of the slide.

BIOMETRIC AUTHENTICATION

- ▶ Fingerprint
- ▶ Facial recognition

SHOPPING AND BANKING

- ▶ Don't allow online stores to store your credit card
- ▶ Use 1-time credit card numbers to pay at sites you will use only once and have doubts about
- ▶ Use a digital wallet such as Apple Pay or Google Pay to protect your credit card number at checkout
- ▶ Use a credit card instead of a debit card and use the chip to authenticate, don't slide
- ▶ Sign up for Bank notifications
- ▶ Check your banking and credit card statements every month to look for suspicious activity
- ▶ Check your credit report
- ▶ Put a freeze on your credit reporting
- ▶ Dispose of expired credit cards properly

PROTECT YOUR CREDIT

The Apple Pay logo, featuring the Apple logo icon followed by the word "Pay" in a sans-serif font.

- ▶ Use 1-time credit cards for insecure purchases
- ▶ Don't let online stores keep your credit card number
- ▶ Use a credit card instead of a debit card
- ▶ Use a digital wallet for purchases

BANK OF AMERICA 

Hi, JAMES, a credit card transaction was made above your chosen alert limit

Amount: **\$573.26**
Credit card: Bank of America World Mastercard Card ending in - **7163**
Where: at PRICKETT S NURSERY HEALDSBURG CA
Type: RETAIL
Transaction date: September 07, 2019

- ▶ Have your bank and credit card company notify you of unusual transactions

USE BANK NOTIFICATIONS

CHECK YOUR STATEMENTS

- ▶ Always check your bank and credit card statements closely for unknown charges
- ▶ Know what your Bank's policy is for reporting bad charges

*** Totals ***			1,515.63	1,442.61	

WIFI

- ▶ Make sure your home Wi-Fi is using WPA2 Personal encryption, not WEP
- ▶ Make sure you are not using the default password for your home router
- ▶ Make sure your router is kept up to date to prevent hacking
- ▶ When you are out, use a VPN when using an open Wi-Fi hotspot such as Starbucks or a hotel
- ▶ Never do anything like banking or using your credit card on hotspots without using a VPN
- ▶ When you log into a new network you will be asked if you want to be visible on the network. If it is not your own network select public
- ▶ At airports and hotels be careful. Criminals will set up their own Wi-Fi hotspots with similar names to trick you. Ask the hotel for the exact name of their Wi-Fi hotspot

- ▶ When you log on to a public wi-fi and are asked if it is secure, choose public
- ▶ Don't do any type of financial transaction on a public wi-fi.
- ▶ If you need to do any sensitive transactions be sure to use a VPN

BE CAREFUL ON PUBLIC WI-FI

TRAVELING

- ▶ The same rules apply as for safe use of public wi-fi
- ▶ Be careful of hotspots at airports and hotels. Hackers may set up their own wi-fi with a similar name
- ▶ Be careful with charging stations in public places. Remember that USB connection you are using can also transfer data

PROTECT YOUR DATA

- ▶ Be sure to remove information from old devices before disposing of them
- ▶ Always have a backup
- ▶ Consider using encryption for your hard drive

HAVE A BACKUP

- ▶ Local Backup using an external drive - An external drive is a better choice than a USB stick
- ▶ Use Windows' File History
- ▶ Do a system image backup
- ▶ Get a cloud backup

- ▶ Lock your home screen – Face recognition, fingerprint, password, pattern or pin
- ▶ Security settings
- ▶ Get an antivirus app if not included
- ▶ App permissions
- ▶ Same rules for public Wi-Fi as computer
- ▶ Install updates and patches
- ▶ Beware SIM Swapping
- ▶ Keep an eye on your device
- ▶ Be careful returning calls from unknown numbers
- ▶ Beware charging your phone at public charging stations

PROTECT YOUR PHONE

- ▶ Post Office Informed delivery
informedelivery.usps.com
- ▶ Take your outgoing mail to the Post Office
- ▶ Get a Post Office Box or locked mailbox
- ▶ Amazon Lockers
 - GNC in Windsor
 - Whole Foods in Coddington
 - Rite Aid In Healdsburg
- ▶ Video Cameras and Doorbell cameras
- ▶ Get sensitive documents online

MAIL AND PACKAGE THEFT

PROTECT YOUR HOME

- ▶ Get an alarm system (AARP 15% off at Simpli Safe)
- ▶ Install Security cameras
- ▶ Install smoke and carbon monoxide sensors and check the batteries twice a year. When daylight savings begins and ends is a good time to remember to do it.
- ▶ Make sure your insurance coverage is up to date.
