Programmer / Analyst

The Alliance for Rural Community Health (ARCH) is seeking a Programmer Analyst with strong development skills to assist in the development of a Health Records Exchange as part of the Mendocino SHARE project (Securing Health Access and Records Exchange). SHARE is funded by a three year HCAP grant from HRSA. The primary developer is a contractor from out of area. The programmer / analyst will interact with local stakeholders, the project manager and the contractor. The position location is in Ukiah, Mendocino County, CA. and requires some travel throughout the County. Project information is at: http://www.ruralcommunityhealth.org/projects/msp.html

ARCH is an association of rural health clinics located in Mendocino and Lake Counties, California. Our mission is to assist and support our Alliance members with providing quality health care and improving the health of our communities

Position Description

Analyse, document and develop system requirements from user business processes. Develop, customize, and modify general computer applications software or specialized utility programs to store, locate, and retrieve specific documents, data, and information. Analyze and design databases within an application area. May program web sites.

Need a developer with experience and understanding of web applications development with relational database. Excellent, Highly Visible development opportunity for healthcare market.

Desired four years+ experience with Java, J2EE, Web Applications, JSP, Servlets, and SQL - Web Services, Eclipse, Tomcat, CVS, highly preferred. Health care industry and LAMP experience also preferred. Salary is market and DOE. Position is temporary to August (future depends on funding) with some benefits and can be part time.
