

The Buddhi Yoga Society is a Co-op organization for all; everyone and anyone can join and become a share holder. Some of you may be familiar with how a food Co-op works—you pay some dues, you put in a few hours of work weekly, and you reap the benefits of buying your produce at cost, below wholesale. The organization is then owned by the members and is composed of the members.

The Buddhi Yoga Society is a service organization also designed to be a Co-operative, composed of members from various temples, churches, ashrams, varnas, and non-profit organizations. However, instead of working together for vegetables and produce, our products are retirement benefits, employment, Social Security, family planning, group health plans, financial security, group life insurance, and any other group services or products, which you may request, that are easier to procure in groups or in bulk.

Mission — Our Dharma is to love each other so that one day we may love God. On both platforms this love can only be manifest by service. Therefore our Dharma is to serve you.

“Dharma means essential nature. As heat is essential to fire, the dharma of all creation is to love. We may not all love the same thing, but love we must. Ultimately the eternal Dharma of all beings beyond even life and death is to love God.”

— AC Bhaktivedanta Swami

Retirement Plan, Social Security, Group Health Care, ...and More!

**A CO-OP ORGANIZATION
SERVING YOU**

3765 Watseka Avenue #11
Los Angeles, California 90034

WWW.BUDDHIYOGA.ORG

We have developed a plan to provide you with a financial retirement package, which may also supplement any existing retirement plan your temple, organization, or family may already have. This model was created to serve you in your years to come. We have designed a mechanism by which individuals can take part in a financial retirement plan (like an employment qualified 401k) coupled with Social Security Benefits. †

This financial retirement plan can also be used to supplement households that may already be in the work-force but who wish to add to their retirement benefits. Please see www.BuddhiYoga.com for details.

† Although the investment portion of the retirement plan is available internationally, the Social Security Benefits aspect is only available to residents and citizens of the USA. However with your support we plan to build local chapters in your country in order to take advantage of any such existing programs which may be sponsored by your government.

Additionally, we will offer a variety of other services and products as members become available. We will be depending on you, our membership, to expand into various programs. We ask our members to give 3 hours each week, so that 350 members are equal to 30 full time employees. So please join us.

WITH ALL YOUR MEMBERSHIPS WE CAN ACHIEVE THESE GOALS:

RETIREMENT PLANS

SOCIAL SECURITY

HOSPICE CARE

GROUP HEALTH CARE

FINANCIAL SECURITY

PERSONAL COUNSELING

MANAGEMENT SEMINARS

FAMILY PLANNING

CREDIT COUNSELING

REHABILITATION

SPIRITUAL COUNSELING
