

California Highway Patrol

Mr. Mischa Reiskwizkizcizzikissass
West County Road #12
Sebastopool, California 95472

January 12, 2007

Dear Mr. Mischa Reiskwizkizcizzikissass:

It has come to our attention that you have requested a postponement of your incarceration due to a minor splinter in your hip.

You should know that under California State Statue 543-9493-39942-93d-7, you are required to attend a course offered by one of our driving instructors. You are free to choose a course from any of the following:

Freedom Drivers School

NYPD Pursuit Driving Course

Hector Moon, Tennessee PD

Finky, Deutsche Auto Gelernen

Combo Car/Weapon Class

Petaluma Donut Patrol

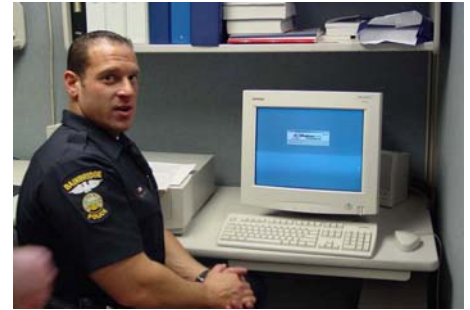

Should you choose to not take the recommended driving training course, we will track you down with the following high tech resources and personnel dedicated to achieving maximum accountability using only minimum force as provided in California State Statue 543-9493-39942-93d-7b:

Office Mac McChesney (not pictured above due to security concerns) has arrested 417 contractors in the past three months. He always gets his contractor!

High-Speed pursuit vehicle made by the Ford Motor Company. Accelerates to 54 MPH in 19 seconds. Includes high-speed Gatling gun integrated in front and rear bumper assemblies.

Officer Eddie Carlos tracks contractors who have been fitted with anklets with geomorphic locational technology. You wanna meet Eddie on the open road with no witnesses to assist you?

Yours Very Truly,

Your California Highway Patrol Strike Force
Tracking High-Speed Contractors Statewide
